# MULTI-WAY STRETCH FABRICS ALLOW FOR IMPROVED FREEDOM OF MOVEMENT

Portwest's innovative mechanical stretch ripstop is constructed from 65% Polyester, 35% Cotton. The ripstop grid weave results in an extremely strong fabric which is highly durable and tear resistant whilst the mechanical stretch offers flexible ease of movement and comfort in motion. A UPF rating of 50+ will block 98% of the UV rays.

Portwest's cutting edge four-way stretch fabric is made from 93% Polyester, 7% Elastane. This blend provides ease of movement and effortless comfort in active use. The fabric delivers technical superiority with high breathability, moisture wicking and fast drying properties. A UPF rating of 50+ will block 98% of the UV rays.

**Portwest Stretch** is a premium cotton stretch fabric. A blend of 98% Cotton and 2% Elastane provides the ultimate in comfort and flexibility. The high cotton content gives an ultra soft handle, and the added elastane delivers ease of movement. The long staple fibres used in the construction process provide strength, excellent pilling resistance and a superior finish. This fabric has a UPF rating of 50+ to block 98% of UV rays.
